Tenants Editorial Panel

Future Investment in your Home...

In order to do this, we appointed KHT Services to carry out a Stock Condition Survey of the association's properties at the end of 2008.

The stock condition survey was carried out on a percentage of homes across the seven boroughs in

which we work. From the survey, it gave us a representative sample on the condition of kitchens, bathrooms, windows, cavity and loft insulation, and central heating. This information combined with historical data was copied across the areas to give an overall picture.

The survey has identified what works are required to ensure that the Associations properties meets the needs of residents and meets the Governments Decent Home Standard by 2010.

The survey has also developed a new 5-year cyclical external painting programme based on geographical area.

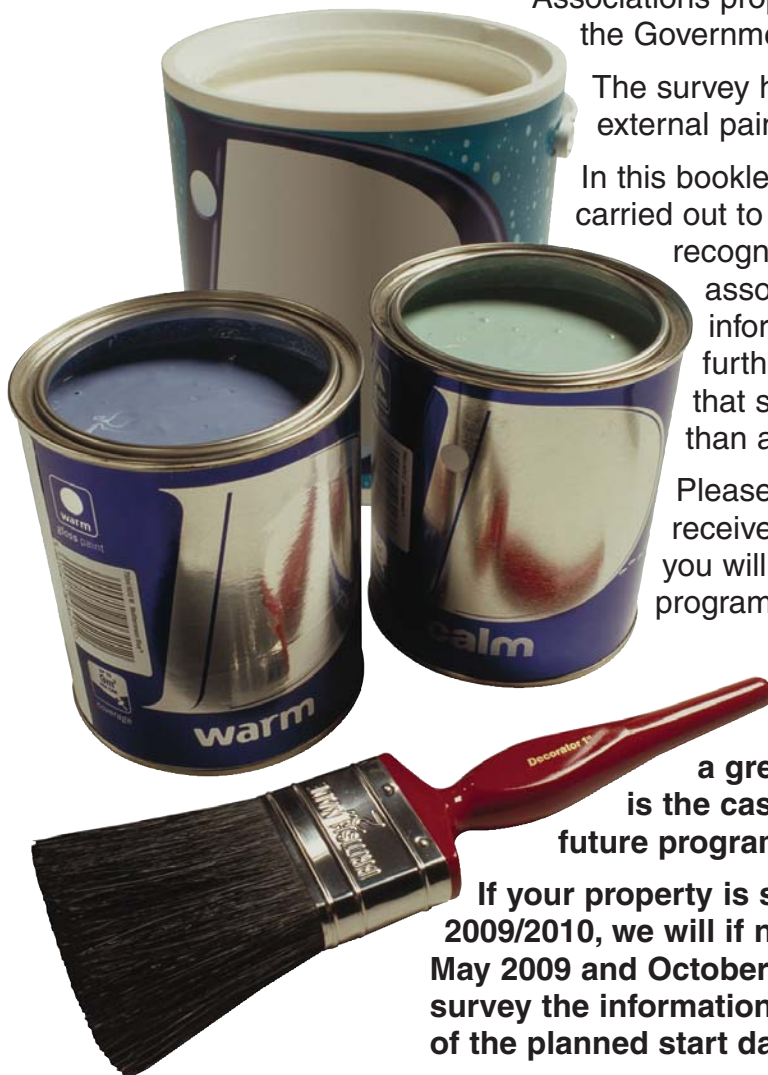

In this booklet, you will find anticipated dates for work to be carried out to your property; however, it is important to recognise some flexibility in this. During 2009, the association will continue to build upon the information we have to develop the programme further and survey resident's homes. This may mean that some works may be completed earlier or later than anticipated.

Please note, if in recent years your home has received major work such as a kitchen or bathroom, you will not be included in the forth-coming programme.

Also, we may find at some properties work does not need to be carried out due to items such as bathroom or kitchens having a greater than envisaged life expectancy. If this is the case, the date of work will be scheduled into a future programme at a later date.

If your property is scheduled for improvement works in 2009/2010, we will if not already, be visiting your home between May 2009 and October 2009 to carry out a survey. Following this survey the information will be collected and you will be informed of the planned start date.

I hope you find this information useful and if you have any questions please contact the Asset Management Team on: **0151 224 0205** or email: **getinvolved@cosmopolitanhousing.co.uk**

Improvement Work Schedule

New Gas Installer!!!

A new gas installer registration scheme has been set up in Britain from April 2009 to replace the previous 'Corgi'. Capita have been appointed to run the scheme and it will be called 'Gas Safe Register'. All approved gas engineers will have the Gas Safety Register Logo.

The Association must make sure that pipe work, appliances and flues provided are maintained in a safe condition and subject to an annual safety check carried out only by a Gas Safe registered engineer.

Always check the engineers ID card. All Gas Safe registered engineers have an ID card with their license number and a photograph. The license number is easily verified on the website or by phone and gas safe will get back to you with confirmation of the engineer's name.

Anyone can find or check a Gas Safe registered engineer 24 hours a day, 7 days a week online at www.GasSafeRegister.co.uk or call **0800 408 5500**.

If you suspect a gas appliance isn't working correctly, turn it off and report it to Cosmopolitan on 0808 100 2578 immediately so they can contact a Gas Safe registered engineer for advice.

If ever in doubt, you can call the National Gas Emergency Service on: 0800 111 999

More information can be found on their website: www.GasSafeRegister.co.uk

If you wish to have this document translated into your own language, please write your name and address and tick the box against your language. Then return the form to Cosmopolitan Housing Association.
